

NACO Services & UKcaravans4hire enter strategic partnership

Huddersfield, England:

UKcaravans4hire & NACO Services are pleased to announce they have entered into a strategic partnership to provide greater value to their respective membership. Through this partnership, UKcaravans4hire will become the preferred rental partner to NACO Services, whilst caravan owners at both organisations will have access to a wider range of services offered by both companies.

Mark Wilson, Chief Operating Officer at UKcaravans4hire said “We’re really excited to be entering into this partnership with NACO. Their reputation as the voice of the caravan owner and their passion for our industry resonated strongly with us. We’re looking forward to working with NACO whose members can now benefit from our platform enabling static caravan owners to offset the cost of holiday home ownership by generating an income through rentals by increasing bookings and removing complexity

Dan Ellacott, Director at NACO said “We’ve been looking to partner with a rental resource for some time and after speaking to the team at UKcaravans4hire, it was clear that their ethos as a company was similar to ours and it immediately felt like the right fit for our membership. Our new partnership will give NACO members access to a safe and secure platform to make the most out of their holiday homes”
