

Victor Lemmens appointed new CEO of Wrangu BV

Wrangu BV is pleased to announce the appointment of Victor Lemmens as Chief Executive Officer with effect from 11th of April. Victor came from the position of Director Benelux at EIT Digital with a strong background in sustainably transforming innovations into profit-generating entities and the development of human capital beyond current performance.

“I am very excited to lead Wrangu in the next phase of its journey as CEO. Low code software is shifting paradigms in the software sector. Combined with several imminent changes in the way technology will support professionals in Governance, Risk and Compliance in the near future, I am thrilled to help Wrangu take a leading position in that transition.”

Victor Lemmens CEO

The new appointment aligns with the company’s accelerated growth strengthening the transition from a start-up to a scale-up. Victor Lemmens: “Wrangu is well-positioned to take a leading role in transforming value delivery of GRC software solutions with the power of low code. Actual implementation effort is moving ever closer to business owners. The loop between software developers and business owners is cut short.” Former CEO Lee Grant will assume the position of Chief of Sales, wherewith his extensive background he will help drive the company’s growth ambitions.

About Victor

Victor’s career of accelerating growth within SaaS companies spans over 20 years. With a relentless focus on customer value delivery, Victor has continuously focused on the effectiveness of technology for customers. After starting a career at Philips leading global software projects and shaping Value

Engineering at SAP in the EMEA region, Victor joined B Wise, a Gartner first quadrant leader in GRC software at that moment in time and contributed to the acquisition of B Wise by Nasdaq in 2014. After that, Victor committed to low code software propositions to close the gap between software development and customer value delivery. During the last year, Victor gave back to European society and supported the efforts to extend Europe's contribution to global digital transformation at EIT Digital.

Victor holds a master's degree in Mechanical Engineering from Aachen Technical University in Germany and a master's degree in Business Administration from Nyenrode Business University in the Netherlands. As a convinced European, Victor speaks Dutch, English, German and French.

About Wrangu
